REMARKS

Claims 1-25 are in the case. The Claims have been made subject to a requirement to restrict. The examiner finds the case contains 9 independent and distinct inventions in addition to inventions defined by individual sequences. In relevant part the examiner finds the Claims 1,2 6-12 and 15 (Group I) are drawn to nucleic acid molecules.

Election of claims is required under 37 CFR 1.143

Accordingly Applicants hereby elect Group I encompassing Claims 1, 2 6-12 and 15 and SEQ ID NO:3 and 4 without traverse.

The claims have been amended to remove non-elected subject matter and to more clearly define Applicants invention.

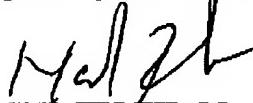

Claims 3-5, 7, and 13-15, are canceled. Claims not canceled herein are withdrawn to preserve the right of rejoinder.

The above Election of Claims does not alter the inventorship of the application.

Applicants reserve the right to file a divisional application to the non-elected matter. In making this election Applicants make no representations or admissions regarding the reasoning employed by the Examiner in support of the restriction.

Should there be any fee due in connection with the filing of this Response To Restriction Requirement please charge such fee to Deposit Account No. 04-1928 (E. I. du Pont de Nemours and Company).

Respectfully submitted,
